Management Committee Action item

Camping at KCC Park

THAT the Management Committee endorse the following Action Item:

That the VCA Chief Executive is to conduct a feasibility study into establishing a dedicated Camping Area at KCC Park. This feasibility study is to include:

1. 6 x separately fenced powered camping areas for a caravan or RV to park and permit dogs to roam free in the fenced area;
2. 10 x separate dedicated power sites for caravans and or RVs;
3. A dedicated toilet and shower block with a minimum of 4 ensuite style cubicles;
4. 1 x common room with basic cooking facilities and dining and sitting areas with TV;
5. 4 x one bedroom self contained cabins (prefab) which can accommodate bunk beds and a sofa bed.

This feasibility study is to provide details of suitable locations within KCC Park for such camping infrastructure and will also provide indicative costings for this infrastructure.

This feasibility study is to be tabled at the June 2023 Management Committee meeting for the consideration of the newly appointed Management Committee.

Rationale:

As VCA Members own KCC Park and for decades members have not had the ability to camp at our grounds to have such facilities available.

As day to day cost of living expenses are now biting, we need to ensure VCA provides assistance and with proper camping facilities available some members will not have to drive to and from KCC Park for cluster shows. Such facilities could also be utilised during natural disasters to accommodate members etc.
